I am a Passionate Front-End Developer with a strong foundation in HTML, CSS, JavaScript, React.js and Next.js. Adept at creating responsive and user-friendly web applications with a keen eye for design and performance optimization. Excited to leverage my technical expertise and problem-solving skills to contribute to impactful web solutions.

PROJECTS

- **PERSONAL PORTFOLIO WEBSITE.**
  A responsive portfolio showcasing skills, projects, and expertise. Built with Next.js 15 and TypeScript, styled with Tailwind CSS, and deployed on Vercel.
  Live Demo | Repo

- **THE WILD OASIS**
  A luxurious hotel reservation platform with customer and employee portals. Built a responsive UI with React.js, Tailwind CSS, and Styled Components. Deployed on Vercel for performance and scalability.
  Technologies: Next.js, Supabase, Tailwind CSS.
  Live Demo | Repo

- **FAST PIZZA**
  A modern pizza ordering app with an intuitive, responsive UI for browsing and customizing orders. Deployed via Vercel for scalability.
  Technologies: React.js, Tailwind CSS, styled components.
  Live Demo | Repo

- **WORLD WISE**
  A travel documentation platform for visualizing and tracking visited countries. Focused on responsive design and user engagement.
  Technologies: React.js, Vite, Styled Components.
  Live Demo | Repo

EXPERIENCE

FRONT-END DEVELOPER (FREELANCE) | JANUARY 2024 – PRESENT
- Built dynamic and interactive web applications using React.js and Next.js.
- Developed server-side rendered (SSR) and static websites leveraging Next.js for improved SEO and performance.
- Integrated third-party APIs to enhance functionality and deliver seamless user experiences.
- Optimized React components for performance and scalability using state management libraries like Redux and Context API.
- Designed responsive and visually appealing UI/UX, ensuring compatibility across devices and browsers.
- Collaborated with clients to deliver custom solutions tailored to their business needs.
- Deployed and managed production-ready applications using platforms like Vercel and Netlify.
